

You are a biologist that has begun to explore the world created in Carroll’s poem “Jabberwocky”. While travelling through the woods, you come across one of the three creatures mentioned in the poem (Jubjub bird, Bandersnatch, Jabberwock). Being the diligent scientist you are, you decide to record your findings while studying this beast.

Your assignment:

Create a scientific drawing with all important parts of the animal labeled. Drawing maybe coloured or shaded.

Write a paragraph (or poem!) detailing the behavioral characteristics you have observed while studying the beast.
